

Level 2 Health and Safety - Retail

Course Description

This course takes you through Working Safely, with specific additional content for workers within the retail sector. This section works through topics which focus on the four key hazards faced within a retail environment, Slips and Trips, Manual Handling, Transport and Violence.

These common hazards can cause problems which in turn can lead to nasty accidents or issues for workers, customers and

The knowledge you gain from this course will help to keep yourself, colleagues and customers safe in the retail environment.

Target Audience

This course is a great induction course in relation to health and safety as it covers a wide range of topics in some detail.

Advantages

As this course covers a wide range of health and safety situations the course provides a strong basis to further build on with more training.

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life
